Research Plan

A complete Research Plan/Project Summary is required for ALL projects and must accompany Student Checklist (1A).

Use this form to outline your Research Plan or Project Summary. For most projects you may submit this form *or* a formal Research Plan or Project Summary. A formal Research Plan is required for projects involving human participants, vertebrate animals, or potential hazards. See instructions for more information.

A. Rationale (Background supporting research)

B. Question / Hypothesis / Problem / Engineering Goals / Expected Outcomes

C. Materials

D. Procedures

E. Risk and Safety Considerations

F. Data Analysis

G. Bibliography (Primary Sources of Information)

1.

2.

3.
